Aarav Sharma

Machine Learning Engineer | MLOps Specialist

aarav.sharma@email.com | +91 98765 43210 | Bengaluru, India | github.com/aarav-ml

PROFESSIONAL SUMMARY

Results-oriented Machine Learning Engineer with 3+ years of experience designing, training, and deploying scalable deep learning and generative AI pipelines. Proficient in PyTorch, Docker, Kubernetes, and AWS cloud infrastructure with a focus on low-latency inference and MLOps automation.

TECHNICAL COMPETENCIES

Python, SQL, PyTorch, TensorFlow, Docker, Kubernetes, AWS, MLflow, CI/CD, Git, Linux, REST APIs, FastAPI

PROFESSIONAL EXPERIENCE

Senior ML Engineer — Apex AI Technologies, Bengaluru | *2023 – Present*

Architected and deployed distributed PyTorch training pipelines on AWS EC2 GPU clusters, reducing epoch training time by 35%. Implemented automated model tracking and registry using MLflow, containerizing models with Docker and orchestrating serving pods via Kubernetes (K8s).

Machine Learning Engineer — Nexa Analytics, Pune | *2021 – 2023*

Developed computer vision and NLP classification models using scikit-learn and TensorFlow. Integrated high-throughput inference endpoints with FastAPI and established CI/CD automated deployment pipelines.

EDUCATION

B.Tech in Computer Science & Engineering — National Institute of Technology (NIT), 2021
