Ananya Iyer

Full Stack Developer | Python Backend & React

ananya.iyer@email.com | +91 97654 32109 | Chennai, India | github.com/ananya-dev

PROFESSIONAL SUMMARY

Full Stack Developer with 3 years of hands-on experience designing responsive user interfaces with React and robust, scalable backend APIs using Python (FastAPI, Django) and PostgreSQL.

TECHNICAL COMPETENCIES

Python, JavaScript, TypeScript, React, Node.js, FastAPI, Django, PostgreSQL, Docker, Git, REST APIs, Linux

PROFESSIONAL EXPERIENCE

Full Stack Developer — StackCraft Systems, Chennai | *2023 – Present*

Engineered responsive modern web interfaces with React, TypeScript, and Tailwind CSS. Built asynchronous RESTful APIs using FastAPI and PostgreSQL, containerizing full-stack microservices with Docker.

Backend Developer — WebForge Solutions, Bengaluru | *2021 – 2023*

Developed core backend modules using Django and Node.js. Maintained code versioning with Git and automated test suites on Linux staging servers.

EDUCATION

B.E. in Information Technology — Anna University, Chennai, 2021
