Priya Patel

Data Scientist | GenAI & Applied ML

priya.patel@email.com | +91 91234 56789 | Hyderabad, India | linkedin.com/in/priya-ds

PROFESSIONAL SUMMARY

Analytical Data Scientist with 2.5 years of industry experience building statistical models, end-to-end predictive systems, and Retrieval-Augmented Generation (RAG) applications using LLMs and LangChain.

TECHNICAL COMPETENCIES

Python, SQL, Pandas, NumPy, scikit-learn, Statistics, LLMs, RAG, LangChain, Hugging Face, Prompt Engineering, Vector Databases, A/B Testing

PROFESSIONAL EXPERIENCE

Data Scientist — CloudScale Analytics, Hyderabad | *2022 – Present*

Built custom RAG enterprise knowledge-base search engine leveraging LangChain, Hugging Face transformer embeddings, and Pinecone vector databases. Formulated and tested statistical hypotheses via A/B testing frameworks, improving user engagement by 18%.

Associate Data Scientist — QuantData Labs, Mumbai | *2021 – 2022*

Engineered automated feature extraction pipelines using Pandas and NumPy. Trained random forest and gradient boosted classifiers using scikit-learn for churn forecasting.

EDUCATION

M.Sc. in Data Science & Applied Statistics — University of Hyderabad, 2021
